

Mobile Resource Access

Mobile Apps

must be downloaded and installed from your device's app store.

BrowZine

BrowZine works by organizing the articles found in Open Access and subscription databases, uniting them into complete journals, then arranging these journals on a common newsstand. The result is an easy and familiar way to browse, read and monitor scholarly journals across the disciplines.

Full instructions at <https://library.mchs.com/browzine>

Clinical Key

Leverage insights for better patient outcomes anytime, anywhere with the ClinicalKey mobile app – available for Apple and Android devices. Access to full-text books, full-text journals, guidelines, multimedia and more. You must create an account.

Mobile Resource Access

PubMed PubReader

The PubReader view is an alternative web presentation that offers another, more reader-friendly way to read literature in PubMed Central and Bookshelf. Designed particularly for enhancing readability on tablet and other small screen devices, PubReader can also be used on desktops and laptops and from multiple web browsers.

<http://www.ncbi.nlm.nih.gov/pmc/about/pubreader/>

RefWorks

RefWorks is a Web-based bibliographic management tool that simplifies the generation of bibliographies and saves time.

<https://library.mchs.com/library-workshops/basic-refworks>

STAT!Ref

STAT!Ref Mobile App Access allows users to search their institution's subscriptions anytime, anywhere. STAT!Ref is available through Mobile Apps that are supported by most popular devices or through web enabled mobile access technology (STAT!Ref Mobile Browser Version).

<http://www.statref.com/products/SRMobile.html>

UpToDate

A comprehensive evidence-based, physician authored, clinical information support resource, designed for clinicians to make the right point-of-care decisions. Full instructions at

https://library.mchs.com/images/pdf/20160602-Trinity_Health_Tip_Sheet.pdf

Mobile Friendly Sites

no app needed and the website automatically senses and adapts to whichever device is being used.

EBSCO

All Android and iOS smartphones and tablets are auto-detected and automatically directed to the mobile EBSCOhost website, with the exception of iPads, which are directed to the full desktop version.

<http://www.ebscohost.com/academic/mobile-access>

The King Guide

Pharmaceutical database on the preparation and administration of IV drugs. For full access follow the link from the MCHSL databases page at:

<https://library.mchs.com/databases>

Medline Plus

The National Institutes of Health's Web site for patients and their families and friends. Produced by the National Library of Medicine, the world's largest medical library, it brings you information about diseases, conditions, and wellness issues in language you can understand. MedlinePlus offers reliable, up-to-date health information, anytime, anywhere, for free. <http://m.medlineplus.gov/>

Mobile Resource Access

The National Library of Medicine Resources

Gallery of NLM's Mobile Applications and Sites including AIDSinfo Drug Database, AIDSinfo Guidelines, AIDSinfo HIV/AIDS Glossary, Drug Information Portal Mobile, Embryo, Health Hotlines, LactMed, NLM Native Voices, PubMed for Handhelds, Radiation Emergency Medical Management (REMM), Reunite, TOXNET Mobile, Turning the Pages Mobile, Water Emergency Response for Libraries, and Wireless System for Emergency Responders (WISER) See: <https://www.nlm.nih.gov/mobile/index.html>
